Welcome to Jordan University of Science and Technology!

Jordan University of Science and Technology (JUST) is a distinguished academic and research institution, dedicated to providing students with an engaging learning environment and a supportive campus culture. We, at JUST, are one extended family that nurtures diversity, respect, and creativity, and thus are honored to see you joining our university family!

Our university is a flourishing academic institution, comprehensively offering top-quality education in all fields of science and technology. JUST offers 143 undergraduate and graduate (MSc and PhD) degrees through its fifteen faculties and institutes. More than 23,000 students are currently enrolled at JUST, with nearly %60 of these being females. International students comprise approximately %15 of our students, proudly making JUST the most culturally diverse higher education institution in Jordan.
Our status as a prestigious university is further boosted by our relentless and sensible efforts to serve the community, be it local, regional, or international, in every way possible.
The people at JUST are devoted to your success, and it is that devotion and commitment that has allowed our university to grow and prosper in a very short time, ranking top in Jordan and among the top 400 universities worldwide in 2019-2018. Indeed, our qualified faculty and administrative staff are well recognized experts in their fields, both regionally and internationally, due to their continued academic and research contributions. Furthermore, our ambassadors of excellence, the illustrious alumni of JUST, are leaders among their peers across the world, and wholeheartedly deliver the vision and mission of our university.

Our state-of-the-art facilities and resources for teaching, research, sports, and recreational activities are among the best in the region. The campus at JUST is a blend of contemporary art of architecture with vast green landscapes, creating the proper environment for students and staff to excel in their work. Nevertheless, JUST is always steadfast on improving all facilities and centers, equipping them with the most advanced technological means of education and recreation.

You are here to begin a journey of personal growth, expanding your knowledge and skills through new ideas, experiences, and relationships. We invite you to explore JUST through our website to learn more about our educational programs and research activities. Be sure that JUST is the place to pursue your future career and fulfill your dreams. Together, we hope we can all fulfill the mission of the university, to have graduates that make a tangible difference in their communities and their countries, through bringing top-notch modern technologies and advancements for the good of the humanity.
Jordan University of Science and Technology (JUST) is a comprehensive, state-supported university located on the outskirts of Irbid, in Northern Jordan, 70 km north of Amman, the capital city of Jordan. JUST was established in 1986 as an autonomous national institute of higher education with the main objective of producing outstanding professionals in specializations that match the needs of Jordan and the region.

Since its establishment, JUST has been at the forefront of higher education in the Arab world. It also maintains a high reputation among the Middle Eastern universities due to its faculty and administrative staff, multi-disciplinary educational systems, and broad diversity of students. The university was described as the “best scientific institution in the Kingdom” by King Abdullah II, and it was ranked as the top university in Jordan for the years 2016 through 2018, according to the Times Higher Education World University Ranking.

JUST is considered today as one of the region’s leading universities in teaching and research. The number of students has increased significantly since the university’s establishment. Today JUST has more than 1000 full-time faculty members, with approximately 23,000 undergraduate and 2500 graduate students, in comparison with 2,300 students in the 1987/1986 academic year. Almost 15% of students enrolled at JUST are international students representing 50 countries and comprising the largest diverse student body in Jordan.

The university provides a wide range of advanced degree programs at the undergraduate and graduate levels, many of them are not offered by any other Jordanian university. At the present time, the university comprises 15 faculties (Medicine, Engineering, Science & Arts, Pharmacy, Dentistry, Agriculture, Veterinary Medicine, Architecture, Information Technology, Applied Sciences, Nursing, and Graduate Studies), Deanship of Research, Deanship of Students Affairs, in addition to the newly established Nanotechnology Institute. 45 undergraduate programs and 98 postgraduate programs are offered. These programs are constantly reviewed to improve their quality and to ensure that the students are always updated with the latest scientific skills and knowledge. All departments, faculties, and service units are working together to ensure that the education we offer is both supportive and rewarding.
At JUST, we are preparing our students for being leaders in their future professions. JUST has come long since it was established in 1986. During this period, JUST witnessed continued growth and rapid expansion and achieved great progress in quantity and quality in every academic aspect. Over the past 3 years, JUST has created its reputation as one of the top leading Universities in the region distinguished by the following advantages:

• A stimulating center of scientific, social and cultural activities.
• A spacious, friendly and modern campus spread over 11 km which has been conceived as a university village.
• High quality career-oriented undergraduate and graduate programs of international standards in English language.
• Highly qualified and dedicated faculty members.
• Outstanding research facilities, learning resources, digital library, IT applications, wireless campus, quality air-conditioned class rooms, and technologically advanced laboratories.
• Affordable tuition fees and moderate living expenses.
• Well-equipped indoor and outdoor facilities.
• On-campus modern furnished and safe female housing complex with reasonable prices.
Academic Programs

**Medicine**

**Undergraduate Programs**

Medicine & Surgery

Health Management & Policy

**Graduate Programs**

M.Sc in Anatomy
M.Sc in Toxicology and Forensic science
M.Sc in Pharmacology
M.Sc in Health Management And Policy
M.Sc in Epidemiology
M.Sc in Health Care Administration
M.Sc in Health Education
M.Sc in Maternal and Child Health
M.Sc in Occupational Health
M.Sc in Physiology
M.Sc in Biochemistry & Molecular Biology
M.Sc in Health Care Management
Higher Specialty In Medicine - Obstetrics And Gynecology
Higher Specialty In Medicine - Legal Medicine
Higher Specialty In Medicine - Otolaryngology

Higher Specialty In Medicine - Orthopaedic Surgery
Higher Specialty In Medicine - Ophthalmology
Higher Specialty In Medicine - Pediatrics
Higher Specialty In Medicine - Pathology
Higher Specialty In Medicine - Diagnostic Radiology
Higher Specialty In Medicine - Emergency Medicine
Higher Specialty In Medicine - Neurology
Higher Specialty In Medicine - Neurosurgery
Higher Specialty In Medicine - Psychiatry
Higher Specialty In Medicine - Anesthesia
Higher Specialty In Medicine - Urology
Higher Specialty In Medicine - General Surgery
Higher Specialty In Medicine - Dermatology
Higher Specialty In Medicine - Internal Medicine
Higher Specialty In Medicine - Family Medicine

**Applied Medical Sciences**

**Undergraduate Programs**

Medical Laboratory Sciences
Radiologic Technology
Dental Technology
Allied Dental Sciences
Optometry
Occupational Therapy
Physical Therapy
Audiology & Speech Pathology
Paramedics
Audiology & Speech Pathology/Audiology
Audiology & Speech Pathology/Pathology

**Graduate Programs**

M.Sc in Clinical Biochemistry
M.Sc in Clinical Microbiology & Immunology
M.Sc in Hematology & Blood Banking
M.Sc in Diagnostic Molecular & Human Genetics
M.Sc in Physical Therapy
M.Sc in Speech
M.Sc in Clinical Rehabilitation Science
Dentistry

Undergraduate Programs

Dental Surgery

Graduate Programs

Higher Specialty In Dentistry
M.sc In Clinical Dentistry- Pediatric Dentistry
M.sc In Clinical Dentistry- Orthodontics

M.sc In Clinical Dentistry- Periodontology
M.sc In Clinical Dentistry- Prosthodontics
M.sc In Clinical Dentistry- Endodontics

Pharmacy

Undergraduate Programs

Pharmacy
Doctor of Pharmacy (PharmD)

Graduate Programs

Ph.D in Pharmaceutical Technology
M.sc In Medicinal Chemistry Pharmacognosy - Pharmacognosy
M.sc In Clinical Pharmacy

M.sc In Medicinal Chemistry Pharmacognosy - Medicinal Chemistry
M.Sc in Quality Control

Nursing

Undergraduate Programs

Nursing
Midwifery

Graduate Programs

M.Sc in Community Health Nursing
M.Sc in Maternal Newborn Nursing

Acute Care Pediatric Nursing
M.Sc in Adult Acute Care
M.Sc in Nursing Services Administration
Engineering

Undergraduate Programs

Chemical engineering
Civil engineering
Electrical engineering
Nuclear engineering

Graduate Programs

Ph.D in Civil engineering
M.Sc in Electrical engineering-Wireless Communication engineering
M.Sc in Civil engineering-Transportation Engineering
M.Sc in Civil engineering-Geotechnical Engineering
M.Sc in Civil engineering-Water Resources & Environment
M.Sc in Electrical engineering-Electronic engineering
M.Sc in Mechanical engineering-Renewable Energy and Sustainable Development Engineering

Veterinary Medicine And Surgery

Undergraduate Programs

Veterinary medicine

Graduate Programs

M.sc Of Veterinary Medicine - Pharmacology & Physiology
M.sc Of Veterinary Medicine - Microbiology
M.sc Of Veterinary Medicine - Veterinary Surgery
M.sc Of Veterinary Medicine - Veterinary Epidemiology
M.sc Of Veterinary Medicine - Theriogenology & Artificial Insemination
M.sc Of Veterinary Medicine - Pathology
M.sc Of Veterinary Medicine - Poultry Diseases
M.sc Of Veterinary Medicine - Internal Medicine
M.sc Of Veterinary Medicine - Food Hygiene
M.sc Of Veterinary Medicine - Veterinary Anatomy And Histology

Institute of Nanotechnology

Graduate Programs

Nanotechnology
Nanoscience
# Agriculture

## Undergraduate Programs
- Animal production
- Plant production
- Nutrition & food technology
- Soil & irrigation

## Graduate Programs
- M.Sc Of Plant Production – Plant Protection
- M.Sc Of Plant Production - Horticulture And Crop Science
- M.Sc Of Natural Resources & Environment - Soil Water & Environment
- M.Sc Of Natural Resources & Environment - Integrated Natural Resources Management
- M.sc Of Animal Production
- M.sc Of Nutrition & Food Technology - Nutrition
- M.sc Of Nutrition & Food Technology - Food Science And Technology

# Science & Art

## Undergraduate Programs
- English language & linguistics
- Mathematics & statistics
- Chemistry
- Physics
- Biotechnology & Genetic Engineering
- Forensic sciences

## Graduate Programs
- M.Sc in Mathematics
- M.Sc in Applied Chemistry
- M.Sc in Applied Biological Science
- M.Sc in English language & linguistics
- M.Sc in Physics

# Computer & Information Technology

## Undergraduate Programs
- Computer engineering
- Computer science
- Computer information systems
- Software engineering
- Network engineering and security

## Graduate Programs
- M.Sc in Computer engineering
- M.Sc in Computer science
- M.Sc in Data Science
- M.Sc in Network engineering and security

# Architecture & Design

## Undergraduate Programs
- Architecture
- Urban planning
- Design & visual communication

## Graduate Programs
- M.Sc in Architecture Engineering
- M.Sc in Urban Planning & Studies

Institute of Nanotechnology

Nanotechnology has started to make a big footprint in the global economic market. Nanotechnology is the study of the material handling and control at the atomic level and molecular dimensions of ultrafine to make optimal use of their properties. It is an area that has developed innovative solutions to the 21st century challenges including alternative energy, incurable diseases and water pollution, by naturally blending various skill sets from biological, medical, chemical and engineering. Then, to implement the Royal vision on the promotion of scientific knowledge and investment in cutting-edge entrepreneurial fields, including the field of pioneering nanotechnology, JUST established, the first of its kind in Jordan, the Nanotechnology Institute in 2016. This unique institute, through the Royal Initiative for Nano innovative projects, is equipped with the state-of-the-art laboratories and offering Master’s degree in Nano engineering and nanoscience. Furthermore, this institute is considered as an incubator for entrepreneurship promoting start-up companies as well as qualifying trained experts and leaders in the interdisciplinary field of nanotechnology to keep abreast of the latest scientific developments in this field which ultimately will contribute to meet the challenges of the century.
International Relations Office

The internationalization strategy of Jordan University of Science and Technology (JUST) is performed and monitored through the International Relations Office. Internationalization serves as a major accelerating factor for tertiary institutions seeking world class status. JUST has recognized through its strategic goals that internationalization is a major tool of equipping its students and consequently the local labor force with the necessary skills for international competitiveness in the age of globalization.

International Partnerships

JUST has close collaborations with over 250 Higher Education Institutions and Research Centers representing 53 Countries all over the world including; North America, Europe, Asia, Africa, and Oceania.

Erasmus + International Credit Mobility program

The Erasmus + International Credit Mobility program offers staff and students at JUST the opportunity to enhance their skills and global competitiveness through experiencing different cultural environment, which consequently would improve their employability and transversal skills. Our mobility programs are coordinated by the office along with a number of European countries including; United Kingdom, Sweden, Spain, Greece, Czech Republic, Lithuania, and Turkey.
Towards excellence in academic development and quality assurance in both academic and administrative spheres

To have quality and globally attended online courses

Center of the Excellence for Innovative Projects
Center of the Excellence for Innovative Projects

We aspire to empower JUST community to accomplish the vision of becoming a first class world university by providing state of the art information technology services and solutions.

To provide services to community in all fields with the help of the expertise, knowledge and distinctive competencies of faculty members and experts from within and outside the university to promote positive competitiveness of various production and service sectors in Jordan and the region.

To be the health care center that provides a distinguished primary health care services according to the international quality standards.

Academic Development and Quality Assurance Center (ADQAC)

Center for E-Learning and Open Educational Resources

Center of Excellence for Innovative Projects

The Information Technology & Communications Center (ITC)

Health Center

The Consultative Center for Science and Technology (CCST)
Queen Rania Al-Abdullah Center for Environmental Science & Technology (QRACEST)
To become an internationally and regionally recognized Center for environmental research, services and consultation.

Princess Haya Biotechnology Center
To be an international pioneers in scientific research, diagnostics and training, leading fields of genomics, proteomics and metabolomics in quality and momentum. We are set to prioritize the use of our cutting-edge, global standard, interdisciplinary technologies in accordance with our national agenda.

Pharmaceutical Research Center
To provide reliable, credible, scientifically sound pharmaceutical services and consultations in a cost-effective and timely manner. PRC looking forward To be one of the internationally accredited and recognized leaders in providing unique sponsored research and clinical trials.

Dental Teaching Clinics
The provision of excellence in dental education and health care.

Languages Center
Pioneering and excellence in promoting cross-cultural understanding among the people of the world through achieving linguistic proficiency.
Academic libraries are engines of scientific research that provide information resources and related services to staff and students, the strategic plan of JUST library includes the vision of being always distinguished in terms of resources and services and of being a leading core source of cultural and scientific knowledge and thought at the national and regional levels.

JUST Library avails access to a tremendous collection of printed and electronic materials in all branches of knowledge. Library collections include 195,000 printed books and 50,000 volumes of back issues of scientific journals that cover all fields of knowledge. Moreover, the library has active subscriptions to around 433,000 eBooks, and has access to 86 databases including about 103,000 electronic journals in full text. All databases and library materials are available to students and faculty members at the university for free. Library users can access these resources by making use of Summon, which is one unified and comprehensive index that avails an effective search in all library resources. They can access these resources from inside or outside the university through the Library official website http://www.just.edu.jo/library.
Beside the free access computer labs equipped with 200 advanced computers, the full coverage of wireless internet service at the library building allows users to access these resources through their own laptops, iPads/Tablets and smartphones.

The library avails the Radio Frequency Identification (RFID) system which is a circulation/return self-service enabling users to borrow and return library materials automatically and independently. The library also has the Digital Library Assistant (DLA) tool, which is employed to arrange and reshelf books. This device is also used for weeding purposes and searching for missing books.

Using the Document Delivery System (DDS) service, the electronic department staff in the library responds within 24 hours by email to researcher’s requests for softcopies of published research articles. Furthermore, library users can borrow any library material via the Inter-Library Loan (ILL) service from Jordanian public university libraries.

The library building is about 12,500 square meters, an area that hosts around 2500 seated library users simultaneously and up to 500,000 printed materials.
The Deanship of Student Affairs was established in September 1986 to complement the academic mission by promoting and preparing the students for entrepreneurship, leadership, and lifelong learning. The deanship works collaboratively with the students to accomplish significant contribution to the neighboring community as well as the society via voluntary work in an attempt to extend the student services beyond the classroom. This duty is accomplished by sponsoring different non-academic programs that foster academic success and promote students' talents, abilities, hobbies, and skills.

**The Deanship of Student Affairs accomplishes its functions through the following departments:**

1. **DEPARTMENT OF CULTURAL AND SOCIAL ACTIVITIES**

This department is responsible for the students' union, clubs, and all the cultural, social, and artistic activities. Its responsibilities include:
- Stimulating and encouraging the development of hobbies among students.
- Developing and encouraging artistic talents and appreciation of arts among the students.
- Encouraging students to participate in the Jordanian, Arabic and Islamic culture and folk activities.
- Encouraging creative work among students.
- Promoting special activities and interests among students.
- Promoting an open atmosphere for positive discussion.
- Opening discussion channels between the administration and the students as well as between the students and the local community.
- Organizing field trips inside Jordan and cultural trips inside and outside Jordan.

2. **DEPARTMENT OF ATHLETIC ACTIVITIES**

Athletic Activities department submits services and facilities that help the social university to set up positive relations by giving opportunity to the students, faculty, and administrative staff to practice on a different kind of sports games with qualified trainers, forming and preparing sport teams technically to participate within different kinds of sports competitions, local, regional and international, and interacting with the local community and Jordanian in general through making common sport activities with give them chance to use the sport facilities. The department is equipped with an olympic-sized swimming pool, fitness center, sauna and steam rooms, two squash courts, and a variety of sports fields.

3. **DEPARTMENT OF STUDENT SERVICES**

This department affords students with the necessary services on and/or off-campus in the areas of financial aid, advising, and orientation. The department provides low-income students with interest-free loans to be paid back after graduation, scholarships to honors students, emergency loans to students when needed, and work-study opportunities. Also, the department keeps personal records and information regarding students, and issues/renewals of student identification cards.
4. CAREER GUIDANCE & ALUMNI OFFICE / KING ABDULLAH II FUND FOR DEVELOPMENT

The department of King Abdullah II Fund for Development was established in 2003 to provide students with professional advice and technical consultation in communication skills and job search. The mechanism of work is based on providing a database concerning the market needs of human resources and matching students training on communication skills with the actual needs of the market, as a fundamental requirement to synchronize the output of the educational system with the needs of the labor market. The office also works to enhance professional ethics and values, help students obtain permanent jobs after graduation, or part-time jobs during university study and link the university student community with the activities of the private sector and the civil society.

5. INTERNATIONAL STUDENTS OFFICE

The primary goal of the International Student’s Office is to attract international students to JUST and ensure that they are appropriately welcomed and supported at JUST. The office provides a full range of consultation services including accommodation, cultural, social and legal services, in addition to organizing trips, social events, and meetings with the president.

6. DEPARTMENT OF HOUSING SERVICES

The University has created what is considered to be an ideal atmosphere for academic progress. The most significant component of this atmosphere is the on-campus residence for female students. The University offers an engaging and intellectually stimulating multicultural setting where female students, from different cultures, network and bond. The Housing Department includes 10 buildings with various models and prices to meet all wishes.
International Students Office

JUST realized that international students have special issues and concerns other than those of local students. For that, The International Student’s Office (ISO), was established inside the University campus. It is the first place for international students to contact for information and support. The ISO is primarily tasked with attracting international students to JUST and ensuring that they are appropriately welcomed and supported at JUST. Qualified coordinators and students’ affairs staff are available at the office to provide full range of consultation services including: accommodation, cultural, social and legal services, in addition to organizing trips, social events, and meetings with the President. JUST values and encourages the University’s mix of Jordanian and international students to create a positive learning environment. In addition to this, the ISO helps the students to celebrate their national occasions and events, such as independence days. By this, JUST stressed that all international students are welcomed and respected at the university. The ISO arranges regular meetings with JUST President and the Dean of Students Affairs.
**Vision**
The ISO is committed to providing a caring and supportive atmosphere for international students, through a variety of academic and student life resources, and envisions a dynamic and inclusive campus community that supports students’ personal, social, and intellectual growth.

**Mission**
The ISO supports international students in their cultural and educational transition to the university, and also aims to provide international students with guidance in and out-of-class support and personalized assistance. In addition, it enriches the lives of students by providing opportunities for students to grow and learn as individuals and to develop as leaders and contributing members of a larger community.

**Goals**
1. Increasing the level of student achievement.
2. Provide cultural enrichment and service to the community.
3. Develop resources and programs: increase access to resources, materials and programs to ensure quality activities and services for international students.
4. Awareness and cooperation: promote intercultural participation between the student body and the campus community, involving faculty, staff and the community in events and workshops
5. Helping international students and Jordanian students to demonstrate a better understanding of each other and raise awareness of global issues.
6. Continue to improve students’ experience by providing quality services to international students at JUST
7. Find innovative services and practices available to serve international students at JUST
8. Updating the website of international student services, materials for printing materials and workshops
King Abdullah University Hospital (KAUH) is the largest medical facility in the North of Jordan, serving approximately one million inhabitants from the Irbid, Ajloun, Jerash, and Mafraq governorates.

KAUH is one of the most prominent and reputable non-profit tertiary hospitals in Jordan and the region.

KAUH provides various clinical and referral healthcare services to other healthcare sectors in Jordan.

KAUH is a university hospital where all JUST health science students receive their education and training.

The hospital is staffed with full-time physicians who are faculty members of the JUST Faculty of Medicine, in addition to many others from the Ministry of Health, and the Royal Medical Services (RMS).

The hospital has a bed capacity of approximately 700, which can be increased to 800 beds in emergency situations.

KAUH offers a state-of-the-art technology, as well as the latest advances in diagnoses and treatment, in addition to its outstanding team of physicians, nurses, pharmacists, and physical therapists.

KAUH is currently establishing a regional radiotherapy center equipped with the most recent and advanced technologies of radiotherapy for specific medical indications. The center is the first of its kind in Jordan and the Middle East.
Irbid, anciently known as Arabella, is Jordan’s 2nd largest city located about 85 km (53 miles) north of Amman, situated at an equal distance from Pella and Umm Qais. Artifacts and graves in the area show that Irbid has been inhabited since the Bronze Age. Pieces of pottery and wall stones found at Tell Irbid were estimated to be made in 3200 BC. In the Hellenistic period, Irbid, then known as Arabella, was a major trade center. Ancient civilizations had left behind in Irbid Governorate multiple archeological and historical sites, where Greek-Roman cities had been established.

Irbid Governorate is considered as the number one agricultural region in Jordan, especially in cultivating citrus, olive, cereals, and producing honey. Cultivable land in the Governorate makes about (%70) of the total area of the Governorate, and (%13.5) of the total cultivable land in Jordan. Irbid is uniquely characterized by the availability of social, cultural and youth services, and the construction development. It includes 9 counties and 18 municipalities. Governorate’s population is 1,770,158 inhabitants, in an area of 1571.8 km². The Governorate’s climate is considered one of the best climates in the world, where there is a green valley, which forms a comprehensive winter-time resort, mountains with all year round vegetation, fertile plains, and the availability of underground water. It is considered a diverse climate, with great potentials for investment projects in tourism.

Irbid has four universities in the Governorate, two of which are governmental; Yarmouk University, Jordan University of Science & Technology, and two private universities; Irbid National University, and Jadara University. Furthermore, three industrial estates are within its premises; Cyber City, Al Maabar City, and Al-Hassan Industrial Estates.
About Jordan

The Hashemite Kingdom of Jordan is located in the heart of the Arab world. Since its establishment, it has become a model of moderation and an evolving democracy in the region. Jordan is based on a modern, progressive constitution and its governing system is a hereditary, parliamentary monarchy. Its people are like a family, where diverse components of different religions, languages, and ethnicities have come together in a melting pot to become one Jordanian family, rendering the Kingdom unique in its unity, diversity and stability.

Jordan is divided into 12 governorates, with Amman being the capital city. According to the Department of Statistics’ data from Feb 2018 census, Jordan’s population is around 9,823,627 people. Jordan’s area is 89,213 square kilometers, and it shares borders with five states: the Kingdom of Saudi Arabia from the south, the Syrian Arab Republic from the north, the Republic of Iraq from the east and the occupied Palestinian territories from the west, in addition to the maritime border it shares with Egypt in the Gulf of Aqaba. Jordan has a moderate desert climate; its land is arid and semi-arid, with a long summer, short winter and little rainfall. The port of Aqaba is Jordan’s only sea access. It overlooks the Red Sea, with the Kingdom’s share of the coast being a 25 kilometre-long shore.

His Majesty King Abdullah II ibn Al Hussein is the King of the Hashemite Kingdom of Jordan since February 1999, on the same day his late father, His Majesty King Al Hussein Bin Talal, passed away. His Majesty is the 41st generation direct descendant of the Prophet Mohammad, peace and blessings be upon him, making Islam’s noble principles of justice, peace, harmony, social cohesion and tolerance the basis for Jordan’s reality and its future.

The major tourist attractions in Jordan include the worldwide famous Petra (UNESCO World Heritage Site since 1985, and one of New Seven Wonders of the World), the Jordan River, Mount Nebo, Qasr Amra, numerous medieval mosques and churches, and unspoiled natural locations as Wadi Rum.
How to Apply

You can apply to Jordan University of Science and Technology directly via our website. For full details of the application process, please visit www.just.edu.jo.

Our website will provide you with all necessary information on admission requirements, enrolment procedures, regulations, fees, programs of study, and lead you to many useful links that are necessary to newly-admitted students. The website will lead you step-by-step what you need to do in order to complete your admission and registration procedures. We hope you will find the website most useful.

We are here to help you in any way possible. We know that as fresh student you do have a lot of questions. So, please do not hesitate to contact us if you have any inquiries whether by email, phone, social media or in person.
You can contact the admission’s office daily from 9am to 3pm except Friday and Saturday at:
00962-2-7201000
Ext. 27202 / 26969

For Admission Inquiries

Please contact the international student’s office at:
iso@just.edu.jo

Why JUST

When you join Jordan University of Science and Technology (JUST), you can be confident that you are joining a centre of excellence in education quality and research.

Top University in Jordan
JUST has been ranked as the top university in Jordan for the academic year 2018 - 2019*
* Times Higher Education World University Ranking

Student Diversity
%15 of students enrolled at JUST are international students representing 50 countries and comprising the largest diverse student body in Jordan.

International Accreditations
ABET Accreditation for the Engineering Faculty
Avicenna, WFME, RCP for the Faculty of Medicine
WFOT, WCPT for the Applied Medical Sciences Faculty
EAEVE for the Veterinary Medicine Faculty.

Green Campus
JUST campus is ranked 4th in the Arab world and at the 97th percentile globally in terms of sustainability according to the Green Metric Ranking.

Unique Programs
JUST offers unique programs at the national and regional level such as; Nuclear & Aeronautical Engineering, Veterinary Medicine, and Paramedics.

Wide Choice of Courses
JUST comprises 15 academic faculties, 62 departments offering 45 undergraduate programs and 98 postgraduate programs.

King Abdullah University Hospital
An advanced medical facility with state-of-the-art medical equipment and quality medical services to serve the local community with a capacity of 750 beds.
