

## Faculty of Medicine

### ☒ Vision

- To lead medical education using creativity and innovation.
- To advance health with quality & compassion.
- To search and discover with imagination and innovation.
- To achieve and maintain human health and well-being to maximum attainable levels.

### ☒ Mission

Faculty of Medicine at Jordan University of Science & Technology is a community of scholars who stimulate & inspire medical students to be leaders in advancing medicine at different levels of health care and who participate in advancing medical science and research.

### ☒ Overview

The faculty of Medicine at Jordan University of Science & Technology was established on the 16<sup>th</sup> of September 1983. The faculty admitted its first class in the academic year 1984/1985, which included only 10 students. Currently, the total number of students in the 6 years undergraduate program reached up to (2550) students.

The faculty started with two departments:

- The basic Medical Sciences.
- The Clinical Medical Sciences.

At present the faculty comprises 17 departments employing 146 academic staff members in various basic and clinical specialties. In addition, the faculty employs 177 part time clinical instructors from the Ministry of Health and the Royal Medical Services. Added to that is a large number of supporting administrative and technical staff.

### ☒ Academic Departments

#### A. Basic Medical Sciences

- Anatomy
- Pharmacology
- Physiology
- Biochemistry & Molecular Biology
- Community Medicine, Public Health & Family Medicine
- Health Administration

#### A. Clinical Medical Sciences

- General & Pediatric Surgery & Urology
- Special Surgery
- Internal Medicine & Dermatology
- Obstetrics & Gynecology
- Pediatrics
- Anesthesia & Intensive Care
- Diagnostic Radiology & Nuclear Medicine
- Accident & Emergency Medicine
- Pathology & Microbiology
- Legal Medicine, Toxicology & Forensic Medicine
- Neuroscience

### ☒ Degrees

#### A. Undergraduate Programs:

- B.Sc. in Medicine and Surgery

#### B. Graduate Programs:

- M.Sc. in Anatomy
- M.Sc. in Biochemistry & Molecular Biology
- M.Sc. in Pharmacology
- M.Sc. in Public health
- M.Sc. in Physiology
- M.Sc. in Toxicology and forensic science

#### C. Higher Specialization Degree in one of the following fields:

- General Surgery
- Pediatrics
- Dermatology
- Ophthalmology
- Neurosurgery
- Radiology
- Anesthesia
- Pathology
- Neurology
- Internal Medicine
- Urology
- Orthopedics
- Otolaryngology
- Psychiatry
- Forensic Medicine
- Emergency Medicine
- Family Medicine
- Obstetrics & Gynecology
