

Activity	Organized by	Date	Location	Faculty website	Facebook Page
Create a poster discussing Rivaroxaban, covering its mechanism of action, indications, dosing, renal adJordan University of Science and Technology according to indications, Transitioning From rivaroxaban To another anticoagulant and vice versa, contraindications, and using this poster to Deliver a concise ten-minute explanation to nursing staff.	Faculty of pharmacy	29/10/2023	Princess Basma Hospital/Irbid	Faculty of Pharmacy website	Faculty of Pharmacy
Create a poster discussing Rituximab, covering its mechanism of action, indications, dosing, optimal preparation and administration methods, contraindications, and prominent safety warnings and using this poster to Deliver a concise ten-minute explanation to nursing staff.	Faculty of pharmacy	29/10/2023	Princess Basma Hospital/Irbid		
Create a poster discussing Infliximab, covering its mechanism of action, indications, dosing, optimal preparation and administration methods, contraindications, and prominent safety warnings and using this poster to Deliver a concise ten-minute explanation to nursing staff.	Faculty of pharmacy	29/10/2023	Princess Basma Hospital/Irbid		
Patient's education regarding alendronate using brochure	Faculty of pharmacy	30/10/2023	Princess Basma Hospital/Irbid		
Designing a brochure for the most common medications used by patients in Prince RashidHospital/Irbid Hospital, followed by distribution to patients in various departments and clinics, as well as education on how to use them correctly.	Faculty of pharmacy	29/10/2023	Prince RashidHospital/Irbid		
Designing a brochure for the most common medications used by patients in Prince RashidHospital/Irbid Hospital, followed by distribution to patients in various departments and clinics, as well as education on how to use them correctly.	Faculty of pharmacy	29/10/2023	Prince RashidHospital/Irbid		
Designing a brochure for the most common medications used by patients in Prince RashidHospital/Irbid Hospital, followed by distribution to patients in various departments and clinics, as well as education on how to use them correctly.	Faculty of pharmacy	29/10/2023	Prince RashidHospital/Irbid		
Designing a brochure for the most common medications used by patients in Prince RashidHospital/Irbid Hospital, followed by distribution to patients in various departments and clinics, as well as education on how to use them correctly.	Faculty of pharmacy	29/10/2023	Prince RashidHospital/Irbid		
The students designed a brochure that contain some counseling points for the patients using tamoxifen about the most important instructions and precautions that should be taken into consideration while using this drug. The content of this brochure was discussed with the pharmacists at the medical oncology center.	Faculty of pharmacy	31/10/2023	Military oncology center		
The students designed a brochure that contain some counseling points for the patients using methotrexate about the most important instructions and precautions that should be taken into consideration while using this drug. The content of this brochure was discussed with the pharmacists at the medical oncology center.	Faculty of pharmacy	31/10/2023	Military oncology center		
A lecture introduced to cardiology nursing staff regarding the difference between Warfarin and the new Direct Oral Anticoagulants (Advantages and Disadvantages).	Faculty of pharmacy	2/11/2021	King Abdullah University Hospital-Arramtha		
Raising awareness of the importance of early breast cancer screening in females by providing educational advice supported by an educational poster.	Faculty of pharmacy	11/2/2023	Princess Badiaa Hospital/Irbid		
The activity was a scientific lecture targeting the nursing students/ second year from al Hashemia University about the most important medications used to manage the most common Cardiovascular diseases	Faculty of pharmacy	1/11/2023	Prince RashidHospital/Irbid		
the inservice was brochure about the best way to use these devices	Faculty of pharmacy	11/2/2023	King Abdullah University Hospital-Arramtha		
the students designed brochures that cover counselling points for the patients	Faculty of pharmacy	10/29/2023	King Hussien Military Hospital/Amman		
A medical awareness day dedicated to educating patients about the importance of the influenza vaccine to protect themselves during every flu season. The students have created a poster and brochure, providing comprehensive information on the definition of the influenza vaccine, its benefits, recommended timing for vaccination, reasons for its necessity, and practical tips on protecting oneself from influenza.	Faculty of pharmacy	1/11/2023	Jordan University of Science and Technology Center		
poster for hypoglycemia management and poster for oral hypoglycemic agent selection based on ADA, posters were distributed in different outpatient clinics and different clinical pharmacy units	Faculty of pharmacy	2/11/2023	Queen Alia Military Hospital/Amman		
patient education by using brochures about the correct use of these drugs.	Faculty of pharmacy	2/11/2023	Queen Alia Military Hospital/Amman		
As requested by internal medicine nursing staff (10A ward), a lecture was given about inhalers use (Symbicort, seretide & bufomix)	Faculty of pharmacy	31/10/2023	King Abdullah University Hospital-Arramtha		
a lecture introduced to university of Jordan students (pharmD, pediatric rotation, 6th year) about the importance of using hospital antibiograms, causes of antibiotics resistance, how to prevent the resistance and the role of antibiotics therapeutic drug monitoring (TDM) in clinical practice.	Faculty of pharmacy	30/10/2023	Queen Rania Hospital for Children/Amman		
A lecture introduced by students to doctors at Princess Rahma Hospital/Irbid about the use of antibiotics in pediatrics (Spectrum of activity, indications and dosing)	Faculty of pharmacy	31/10/2023	Princess Rahma Hospital/Irbid		
A lecture introduced to pediatrics nursing staff (4B ward) about 7 drugs (acyclovir, Tocilizumab, infliximab, Anidulafungin, Hypertonic saline, IVIG, Ketamine)	Faculty of pharmacy	2/11/2023	King Abdullah University Hospital-Arramtha		
a lecture shedding light on the fears that surround the new jordanian MR vaccine campaign, given to faculty members and students (supplemental brochure was added)	Faculty of pharmacy	2/11/2023	King Abdullah University Hospital-Arramtha		
news letter that summarizes new findings regarding the role of finerinone in HF management	Faculty of pharmacy	1/11/2023	King Abdullah University Hospital-Arramtha		
newsletter that summarizes new evidence of lirezole superiority in inducing fertility with pcos	Faculty of pharmacy	1/11/2023	King Abdullah University Hospital-Arramtha		
newsletter that summarizes latest literature concerning Rifabutin use in quadrable H.pylori erication therapy	Faculty of pharmacy	1/11/2023	King Abdullah University Hospital-Arramtha		
A lecture introduced to medical temes in oncology department about map protocol	Faculty of pharmacy	30/10/2023	King Abdullah University Hospital-Arramtha		
A lecture introduced to medical temes in chemotherapy unite about CDK inhibitor with hormone therapy	Faculty of pharmacy	2/11/2023	King Abdullah University Hospital-Arramtha		
PATIENT EDUCATION	Faculty of pharmacy	21112023	King Abdullah University Hospital-Arramtha		
A lecture introduced to medical temes in oncology department about map protocol	Faculty of pharmacy	30\10\2023	King Abdullah University Hospital-Arramtha		
A lecture introduced to medical temes in chemotherapy unite about CDK inhibitor with hormone therapy	Faculty of pharmacy	21112023	King Abdullah University Hospital-Arramtha		
as requested by internal medicine nursing staff (10A ward), a lecture was given about inhalers use	Faculty of pharmacy	30/10/2023	King Abdullah University Hospital-Arramtha		
Interactive booth for patients and public visiting King Abdullah University Hospital-Arramtha (education about insulin and diabetic medications use).	Faculty of pharmacy	16/11/2023	King Abdullah University Hospital-Arramtha		

Interactive booth for patients and public visiting King Abdullah University Hospital-Arramtha (education about insulin and diabetic medications use).	Faculty of pharmacy	16/11/2023	King Abdullah University Hospital-Arramtha
A lecture introduced to Nursing students at Princess Badia'a hospital/Irbid (education about insulin use in Gestational Diabetes and use of Oxytocin medication in obstetrics and gynaecology with providing an educational materials)	Faculty of pharmacy	11/26/2023	Princess Badia'a hospital/Irbid
awareness brochures were distributed to the patient about isotretinoin and inaglipitin at the different hospital pharmacies.	Faculty of pharmacy	28\11\2023	Queen Alia Military Hospital/Amman
A lecture introduced to doctors in Princess Rahma Hospital/Irbid on the medications used in the treatment of ITP	Faculty of pharmacy	28/11/2023	Princess Rahma Hospital/Irbid
Patient's education regarding warfarin using brochure	Faculty of pharmacy	27/11/2023	Princess Basma Hospital/Irbid
We give a lecture to nursing staff about administration, preparation of administration in pediatrics, general dosing, suitable diluents, storage and stability for the following medications: IVIG, vitamin K, lorazepam, morphine, IV Iron,tobramycin, and levofloxacin	Faculty of pharmacy	30/11/2023	King Abdullah University Hospital-Arramtha
An interactive booth for patients was set up during the event. The discussions covered the disease, its complications, necessary tests, and education sessions for patients on using insulin and other diabetic medications	Faculty of pharmacy	29/11/2023	Prince Rashid bin Al Hassan Hospital
Create a poster discussing Labetalol , covering its mechanism of action, indications, dosing, Storage/Stability, preparation and administration , contraindications, IV to Oral Conversions and using this poster to Deliver a concise ten-minute explanation to nursing staff	Faculty of pharmacy	29/11/2023	Princess Basma Hospital/Irbid
Create a poster discussing warfarin , covering its mechanism of action, indications, dosing, Transitioning Between warfarin to other Anticoagulants and vice versa , How To Deal With Warfarin In surgery , black box warning, side effect and management for warfarin toxicity and using this poster to Deliver a concise ten-minute explanation to nursing staff	Faculty of pharmacy	29/11/2023	Princess Basma Hospital/Irbid
Create a poster discussing the management of hospitalized patient with diabetes or new hyperglycemia on a general medical surgical ward who is expected to eat a normal diet and who is NPO and using this poster to Deliver a concise ten-minute explanation to nursing staff	Faculty of pharmacy	29/11/2023	Princess Basma Hospital/Irbid
The students designed a brochure that contain some counseling points for the patients using 6-mercaptopurine about the most important instructions and precautions that should be taken into consideration while using this drug. The content of this brochure was discussed with the pharmacists at the medical oncology center.	Faculty of pharmacy	27/11/2023	Military oncology center
The students designed a brochure that contain some counseling points for the patients using Ruxolitinibabout the most important instructions and precautions that should be taken into consideration while using this drug. The content of this brochure was discussed with the pharmacists at the medical oncology center.	Faculty of pharmacy	27/11/2023	Military oncology center
Interactive booth for patients and public visiting Jordan University of Science and Technology center (education about insulin and diabetic medications use, hypoglycemia management, and micro & macrovascular complications especially diabetic foot.).	Faculty of pharmacy	22-23/11/2023	Jordan University of Science and Technology center
A lecture introduced by students to Nursing in oncology ward about the details of RCEOP protocol.	Faculty of pharmacy	28-11-2023	King Abdullah University Hospital-Arramtha
The students designed a brochure that contain some counseling points for the patients using goserlin drug.	Faculty of pharmacy	30-11-2023	King Abdullah University Hospital-Arramtha
The students designed a brochure that contain some counseling points for the patients using triptorelin drug.	Faculty of pharmacy	27-11-2023	King Abdullah University Hospital-Arramtha
Chain of visits to the anticoagulant clinic to learn the practical aspects of dealing with all aspects of warfarin, assisting patients on anticoagulants in the cardiology unit, and ultimately engaging in a role play with a clinical pharmacist at King Hussien Military Hospital/Amman	Faculty of pharmacy	11/30/2023	King Hussien Military Hospital/Amman
three drug information questions were assigned to the students regarding specific indication in the literature; telressin role in septic shock, L-carnitine role in sepsis and IVIG role in Covid-19	Faculty of pharmacy	26/11/2023	Queen Alia Military Hospital/Amman
Summarization of the most updated Heart Failure Guideline and presenting it as a lecture to the nursing staff at cardiology unit in King Abdullah University Hospital-Arramtha.	Faculty of pharmacy	30/11/2023	King Abdullah University Hospital-Arramtha
A lecture introduced by 6th year pharm.d students to Queen Rania Hospital for Children/Amman internal pharmacy staff and hematology department head nurse that included three new updates/studies related to SCD	Faculty of pharmacy	30/11/2023	Queen Rania Hospital for Children/Amman
Lecture introduced by students to medical teams	Faculty of pharmacy	26/11/2023	King Abdullah University Hospital-Arramtha
Patient's education regarding hormonal therapy	Faculty of pharmacy	26/11/2023	King Abdullah University Hospital-Arramtha
patients education and spreading educational brochures and put copies of brochures in clinical pharmacy unit to be spreaded by pharmacist staff in the hospital in future	Faculty of pharmacy	11/30/2023	Queen Alia Military Hospital/Amman
3 arabic brochures directed to patients about three newmedications in jordan	Faculty of pharmacy	30/11/2023	King Abdullah University Hospital-Arramtha
two news letters, in English, directed to healthcare providers, combined they summerized 10 new guideline changing findings in literature in different topics	Faculty of pharmacy	30/11/2023	King Abdullah University Hospital-Arramtha
summerizes the new diabetes ADA guideline and the latest ACR guideline for Systemic Lupus Erythematosus (SLE) management, rheumatoid barthritis and sepsis guidelines	Faculty of pharmacy	30/11/2023	King Abdullah University Hospital-Arramtha
A comprehensive word file that contains the brands of all boycotted medications in jordan, the available alternatives and the drug store of each alternative	Faculty of pharmacy	30/11/2023	King Abdullah University Hospital-Arramtha
3 files each containing the full monograph for empagliflozin, dapagliflozin and liraglutide each	Faculty of pharmacy	30/11/2023	King Abdullah University Hospital-Arramtha
patient education through brochures regarding isotretinoin and insulin pens	Faculty of pharmacy	11/27/2023	King Abdullah University Hospital-Arramtha
A lecture introduced to Nursing students at Princess Badia'a hospital/Irbid(education about Magnesium sulfate drug information and its use in obstetrics and gynaecology with providing an educational materials)	Faculty of pharmacy	12/19/2023	Princess Badia'a hospital/Irbid
We will give a lecture to nursing staff about administration, preparation of administration in pediatrics, general dosing, suitable diluents, storage and stability for the following medications: Liposomal amphotericin B, Linezolid, MTX, 6-MP, ceftazidime/avibactam, and Picoprep	Faculty of pharmacy	26/12/2023	King Abdullah University Hospital-Arramtha
Patient's education regarding allopurinol using brochure	Faculty of pharmacy	26/12/2023	Princess Basma Hospital/Irbid
alendronate and methotrexate patient education	Faculty of pharmacy	12/26/2023	King Abdullah University Hospital-Arramtha
A lecture introduced by students to pharmacists about antibiotics,antihistamines and anti-inflammatory eye preparations.	Faculty of pharmacy	21\12\2023	Queen Alia Military Hospital/Amman

Based on nursing staff at ward 11A request, students introduced a lecture about the newest HF guideline focusing on treatment and monitoring part for nursing staff and nursing students.	Faculty of pharmacy	27/12/2023	King Abdullah University Hospital-Arramtha
The students designed a brochure that contain some counseling points for the patients using Temozolomide, Capecitabine and Cyclophosphamide, that contain the most important instructions and precautions that should be taken into consideration while using these drugs. The content of this brochure was discussed with the pharmacists at the medical oncology center.	Faculty of pharmacy	26/12/2013	MCAC
The students designed a brochure for patients using isosorbide dinitrate, levothyroxin, and clenil inhalers that contains the most important instructions and precautions to be taken into consideration while using these drugs. Then, distribution to patients in different departments.	Faculty of pharmacy	28/12/2023	Prince Rashid bin Al Hassan Hospital
A lecture introduced to nursing students at Jordan University of Science and Technology on the proper use of Inhalers in Chronic Respiratory Diseases	Faculty of pharmacy	24/12/2023	Princess Rahma Hospital/Irbid
Create a poster discussing the vancomycin infusion reaction and how to manage this reaction with regard to severity.	Faculty of pharmacy	27/12/2023	Prince Rashid bin Al Hassan Hospital
Create a poster discussing magnesium sulfate indications, dosing, compatibility, storage and stability, preparation and administration, contraindications, shelf life, monitoring parameters, and side effects.	Faculty of pharmacy	27/12/2023	Prince Rashid bin Al Hassan Hospital
A lecture introduced to Jordan University of Science and Technology nursing students about insulins pens (types and administration).	Faculty of pharmacy	26/12/2023	King Abdullah University Hospital-Arramtha
Create a poster discussing Digoxin, covering its mechanism of action, indications, dosing, renal adJordan University of Science and Technologyments, optimal preparation and administration methods, contraindications, and prominent safety warnings and using this poster to Deliver a concise ten-minute explanation to nursing staff.	Faculty of pharmacy	27/12/2023	Princess Basma Hospital/Irbid
Create a poster discussing Octreotide, covering its mechanism of action, indications, dosing, optimal preparation and administration methods, contraindications, and prominent safety warnings and using this poster to Deliver a concise ten-minute explanation to nursing staff.	Faculty of pharmacy	27/12/2023	Princess Basma Hospital/Irbid
Create a poster discussing emetic potential of chemo therapy drugs , types of emesis induced by chemotherapy , mangment of nausea and vomiting including (drugs, dosing, frequency, duration)	Faculty of pharmacy	27/12/2023	King Abdullah University Hospital-Arramtha
create a poster discussing the extravasation properties of chemotherapy drugs , how to dealing with extravasation if it happened according to guideline.	Faculty of pharmacy	28/12/2023	King Abdullah University Hospital-Arramtha
The students have created diverse brochures that contain counseling points for patients using Sympicort inhaler, Asthalin inhaler, and Alendronate. Additionally, these brochures provide information about the complications of dyslipidemia and chickenpox disease. The contents of these materials were discussed with patients at the Jordan University of Science and Technology center.	Faculty of pharmacy	28/12/2023	Jordan University of Science and Technology center
a lecture introduced to al-balqaa medicine students about antibiotics spectrum of activity and use in pediatrics, the students also prepared a paper summerized the best options to be used in MDR-infections	Faculty of pharmacy	21/12/2023	Queen Rania Hospital for Children/Amman
an updated summary of four different guidelines: gestational DM, Kawazaki, Open Angle Glucoma and Gout	Faculty of pharmacy	19/12/2023	King Abdullah University Hospital-Arramtha
Four newsletters each highlighting different drug related update in literature like: IV Iron role in HF, FDA approval of Nonprescription Intranasal Naloxon for prevention of opioid overdose, Beers criteria change concerning DOAC use in elderly and approval of Ensifentrine for COPD management	Faculty of pharmacy	6/12/2023	King Abdullah University Hospital-Arramtha
Arabic Brochures about: Airocumab (praluent), Sacubitril/valsartan (Entresto), Raloxefin (Evista), Tirzepatide (Mounjaro)	Faculty of pharmacy	13/12/2023	King Abdullah University Hospital-Arramtha
comprehensive monographs about: Airocumab (praluent), Sacubitril/valsartan (Entresto), Raloxefin (Evista), Tirzepatide (Mounjaro)	Faculty of pharmacy	19/12/2023	King Abdullah University Hospital-Arramtha
Chain of visits to the anticoagulant clinic to learn the practical aspects of dealing with all aspects of warfarin, assisting patients on anticoagulants in the cardiology unit, and ultimately engaging in a role play with a clinical pharmacist at King Hussien Military Hospital/Amman	Faculty of pharmacy	12/28/2023	King Hussien Military Hospital/Amman
talking to the hemodialysis patients in the hemodialysis unit about the appropriate diet for them and some methods to restrict water restrictions, this event was fortified by spreading brochures prepared by the students.	Faculty of pharmacy	12/28/2023	Queen Alia Military Hospital/Amman
Participation in the medical open day for diabetics in cooperation with the College of Dentistry and the Health Center	Faculty of Dentistry	24/1/2023	Dentistry Clinics/Irbid
Holding a free medical day to serve the local community in the municipality of Sahl Hauran, where a dental examination and awareness of oral health were conducted	Faculty of Dentistry	18/3/2023	Sahl Huran Municipality
Holding an awareness activity during which teeth were examined and cleaned with fluoride, brushes and toothpastes were distributed, symbolic gifts for children, and awareness leaflets on the importance of oral and dental health care and the correct way to use the toothbrush	Faculty of Dentistry	20/3/2023	Al-Farouq Association/Irbid
In cooperation with the Saudi Food and Drug Administration, the Jordan Chemical Society and the Industrial Giant Group, the Faculty of Pharmacy, in coordination with Prof. Dr. Sherine Al-Assaf, organized a workshop on cosmetic and cosmetic pharmaceuticals, which was opened by Dr. Suhad Al-Jundi, a representative of the President of the University, and the workshop was concerned with keeping pace with the latest research and scientific developments and exchanging experiences in the field of various pharmaceutical sciences and introducing students and participants to the objective uses of cosmetic products in effective ways. It was attended by many fathoms, including Mrs. Ruba Goussous, Assistant Director General of the Saudi Food and Drug Corporation, and the President of the Jordanian Chemical Scientific Society, Prof. Dr. Abeer Al-Bawab.	Faculty of pharmacy	12/1/2023	Jordan University of Science and Technology
The lecture was delivered by Prof. Dr. Ibrahim Al-Abbadi, President of the World Society for Pharmaceutical Economics and Results Research in Jordan, and it focused on the history of the development of economies internationally and locally and the importance of the role of Aspor.
