

Research Centres with a specific focus on environmental sustainability

Jordan University of Science and Technology (JUST) hosts four research centers with a dedicated focus on environmental sustainability. These centers are run by teams of FTE staff members who are committed to advancing research in this critical area. In addition to their research activities, these centers actively contribute to the academic programs at both the undergraduate and postgraduate levels. Through curriculum development, teaching, and supervision, they ensure that students receive comprehensive education aligned with the latest advancements in environmental sustainability.

Center	About	Evidence
The Center for Sustainable Development Studies and Technology (CSDST)	The Center for Sustainable Development Studies and Technology (CSDST) is an independent think tank dedicated to developing strategies, conducting research, offering consultations, and managing projects focused on achieving sustainable development. Their goal is to provide decision-makers, civil society, and local and international donors with scientifically-based evidence and advice to inform policy decisions aimed at sustainable development.	https://www.just.edu.jo/Centers/CSDST/Pages/welcome.aspx
The Consultative Center for Science and Technology (CCST)	The Consultative Center for Science and Technology (CCST) was established in 1996 to leverage the scientific and human resources of Jordan University of Science and Technology (JUST) for the benefit of Jordanian and Arab communities. It serves as a vital hub for providing a wide range of services to the community across various fields, utilizing the expertise of faculty members and external experts. CCST is	https://www.just.edu.jo/centers/ConsultativeCenter/Pages/default.aspx#

	<p>renowned for its training courses, workshops, consultancy services, feasibility studies, and designs in engineering, healthcare, education, technology, and other sectors, supporting both public and private sectors within and outside Jordan.</p>	
<p>The Center of Excellence for Innovative Projects</p>	<p>The Center of Excellence for Innovative Projects at JUST provides a technical environment to support and sponsor innovators from the university and the local community. It offers facilities and services to nurture innovation, from prototype development to commercial launch, with departments dedicated to technical support, training, marketing, and technology transfer. The center also supports initiatives benefiting the university and the community, addressing social, economic, academic, and health challenges.</p>	<p>https://www.just.edu.jo/centers/ceip/Pages/default.aspx#</p>
<p>Queen Rania Al-Abdullah Center for Environmental Science and Technology</p>	<p>The Queen Rania Al-Abdullah Center for Environmental Science and Technology (QRACEST) aims to strengthen the relationship between JUST and both public and private sectors, focusing on sustainable development through education, research, and services. QRACEST is committed to preserving the environment and natural resources, combating pollution, and</p>	<p>https://www.just.edu.jo/centers/QueenRaniaAl-AbdullahCenter/Pages/default.aspx</p>

	<p>integrating economic growth considerations. It actively participates in national and international efforts toward sustainable development, contributing to the protection of the environment while fostering economic progress.</p>
