| PRINCIPLES | Jordan University of Science and Technology (“JUST” or “Institution”) is a public and non-profit organization. JUST is committed to the provision of exemplary graduate and undergraduate education. As an essential part of this mission, JUST strives to facilitate high-quality research, scholarship, and public engagement by its students, faculty and staff. |
| Scope: | This policy for disclosure and management of conflicts of interest applies to all grants and cooperative agreements that are submitted to PHS (NIH, CDC, FDA, etc.) and other non-federal sponsors that adopt the PHS policy for research. |

I. POLICY SUMMARY

PURPOSE, SCOPE AND APPLICATION

PURPOSE

The Financial Conflicts of Interest in Research Policy (“Policy”) promotes objectivity in research, and establishes standards to ensure that the design, conduct, and reporting of research funded by Public Health Service grants or cooperative agreements, or other extramural sponsors will not be biased by any conflicting financial interest on the part of JUST research faculty and staff or others acting on its behalf. A financial conflict of interest can be any situation in which financial considerations have the potential to compromise a researcher’s professional judgment and objectivity in the design, conduct or reporting of research. JUST encourages research faculty and staff to engage in appropriate outside relationships, but Significant Financial Interests (as defined below) related to these relationships must be disclosed, reviewed and managed in accordance with this Policy.

JUST represented by the Deanship of Research has a responsibility to ensure that its teaching and research environment fosters new knowledge and positive learning opportunities for students while preserving the integrity of its research activities and the public’s trust. Therefore, this Policy aims at facilitating research relationships with outside entities by increasing transparency and accountability so that JUST research faculty, and staff and others acting on its behalf avoid or mitigate real or perceived financial conflicts of interest and reasonably expect that their activities and interests do not conflict with their obligations to JUST or its mission. JUST’s Dean of Deanship of Research is responsible for ensuring the implementation of this Policy.

SCOPE

This Policy is intended to carry out JUST’s financial conflicts of interest responsibilities related to academic affairs, research and sponsored projects covered under the Public Health Service (“PHS”) Promoting Objectivity in Research, 42 CFR Part 50, Subpart F and 45 CFR Part 94, and financial conflicts of interest in other sponsor-funded research, although such cases may not be required to be reported to federal agencies. Other project sponsors may impose financial conflict of interest regulatory or contractual requirements. To the extent such requirements apply to specific instances of financial conflict of interest and are inconsistent with this Policy, JUST will comply with the applicable regulatory or contractual requirements.

The federal Department of Health and Human Services (HHS) has determined, pursuant to 42 C.F.R. Part 50, Subpart F and 45 C.F.R. Part 94, as revised on August 25, 2011, that effective no later than August 24, 2012, Public Health Service (PHS) - sponsored Investigators shall be subject to specific requirements regarding the disclosure and management of conflicts of interest with regard to research in order to provide a reasonable expectation that PHS-sponsored research will be conducted free of bias resulting from Investigator Financial Conflicts of Interest.

These regulations require the University to maintain a written policy on conflict of interest disclosure as a condition for receiving PHS awards. Therefore, the University is obligated to

Jordan University of Science and Technology – Policy PHS-COI

Disclosure of Financial Interests & Management of COI, PHS Research Awards establish this policy consistent with these regulations to require disclosure, and identification and management of Financial Conflicts of Interest for all Investigators supported by PHS (NIH, CDC, FDA, etc.) research awards and other non-federal sponsors that adopt the PHS policy, (for example, American Heart Association and the American Cancer Society).

This policy applies to all grants and cooperative agreements with an issue date of the Notice of Award on or after August 24, 2012 (including noncompeting continuations), and to solicitations issued and contracts awarded after August 24, 2012 that are for research. These federal requirements are applicable to all proposals for extramural awards submitted to PHS.

Consistent with PHS regulations, this policy will be made available via a publicly-accessible website. All Jordan University of Science and Technology Investigators (that is, individuals who, regardless of position or title, are responsible for the design, conduct or reporting of PHS supported research, and Investigators seeking PHS research support) shall be informed where this policy and relevant reporting requirements may be accessed via the web.

II. DEFINITIONS

Designated Official(s)

An official or officials designated by the Dean of Deanship of Research, or designee, to solicit and review Investigators' completed Disclosure of Financial Interest forms and who may determine whether the Investigator has a Financial Conflict of Interest.

Financial Conflict of Interest

A Significant Financial Interest that is related to the PHS-funded research activity in which the Investigator is engaged and that could directly and significantly affect the design, conduct and/or reporting of PHS-funded research activity.

Independent Substantive Review Committee (ISRC)

A Committee which may be appointed (in lieu of or in addition to a designated individual) by the Dean of Deanship of Research (or designee) to review Investigators' Significant Financial Interests related to PHS funded research, and to serve as the Designated Official(s) who determines whether any of the Significant Financial Interests constitutes a Financial Conflict of Interest. At the campus' discretion, this review may be conducted by either an individual designated as a Designated Official or the ISRC.

Institutional Responsibilities

Institutional responsibilities means an Investigator's professional responsibilities on behalf of the Institution, and as defined by the Institution in its policy on financial conflicts of interest, which may include for example: activities such as research, research consultation, teaching, professional practice, institutional committee memberships, and service on panels such as Institutional Review Boards (IRB) or Data and Safety Monitoring Boards.

Public Health Service (PHS)

The Public Health Service of the U.S. Department of Health and Human Services, and any

Jordan University of Science and Technology – Policy PHS-COI

Disclosure of Financial Interests & Management of COI, PHS Research Awards components of the PHS to which the authority involved may be delegated, including the National Institutes of Health (NIH)

Investigator

Any individual responsible for the design, conduct, or reporting of the results of work performed or to be performed under the PHS-sponsored project. This includes the Principal Investigator, Co-Investigators, and any other individual who has responsibility for designing, conducting, or reporting of research funded by PHS or proposed for such funding.

Key Personnel

A PHS research Project Director, Principal Investigator and any other personnel considered essential to work performance and identified as Key Personnel in the contract proposal, grant, or contract.

Principal Investigator

An Investigator, (normally an academic appointee), who has primary responsibility for the scientific and technical conduct, reporting, fiscal and programmatic administration of a sponsored project.

Research

Research means a systematic investigation, study, or experiment designed to contribute to generalizable knowledge relating broadly to public health, including behavioral and social-sciences research. The term encompasses basic and applied research (e.g., a published article, book or book chapter) and product development (e.g., a diagnostic test or drug).

Significant Financial Interest (SFI)

Significant Financial Interest means a financial interest consisting of one or more of the following interests of the Investigator or the Investigator's spouse or registered domestic partner¹ and dependent children for the following categories:

A. With regard to any *publicly-traded entity* (domestic or foreign), a Significant Financial

¹ The inclusion of "registered domestic partner" is consistent with California State law (Family Code section 297 et seq.), but is not specifically required under PHS regulations

Jordan University of Science and Technology – Policy PHS-COI

Disclosure of Financial Interests & Management of COI, PHS Research Awards

Interest exists if the value of any remuneration (other than remuneration described in the exceptions below) received from the entity in the twelve months preceding the disclosure and the value of any equity interest in the entity as of the date of disclosure, when aggregated, exceeds \$5,000. Included are salary (other than salary described in the exceptions below), consulting fees, honoraria, and the equity interest value at the date of disclosure as determined by public prices or other reasonable measure of fair market value;

- B. With regard to any *non-publicly-traded entity* (domestic or foreign), including a non-U.S. institution of higher education or a non-U.S. government agency, a Significant Financial Interest exists if the value of any remuneration (other than remuneration described in the exceptions below) received from the entity in the twelve months preceding the disclosure, when aggregated, exceeds \$5,000, or when the Investigator (or the Investigator's spouse, registered domestic partner, or dependent children) holds any equity interest;
- C. Intellectual property rights and interests, upon receipt of income, exceeding \$5,000 during the twelve months preceding disclosure from such rights and interests. However, Significant Financial Interests do not include royalties received from the University of California Regents;
- D. Investigators also must disclose the occurrence of any reimbursed or sponsored travel (i.e., that which is paid on behalf of the Investigator and not reimbursed to the Investigator so that the exact monetary value may not be readily available), related to their institutional responsibilities; provided, however, that this disclosure requirement does not apply to travel that is reimbursed or sponsored by a Federal, state, or local government agency, an Institution of higher education as defined at 20 U.S.C. 1001(a), an academic teaching hospital, a medical center, or a research institute that is affiliated with an Institution of higher education. The Institution's FCOI policy will specify the details of this disclosure, which will include, at a minimum, the purpose of the trip, the identity of the sponsor/organizer, the destination, and the duration. In accordance with the Institution's FCOI policy, the Institutional Official(s) will determine if further information is needed, including a determination or disclosure of monetary value, in order to determine whether the travel constitutes an FCOI with the PHS-funded research

Exceptions: The term "Significant Financial Interest" does not include the following types of financial interests:

- Salary, royalties, or other payments made by the University of California Regents to a University of California Investigator who is currently employed or otherwise appointed by the University;
- Income from seminars, lectures, teaching engagements, or service on advisory committees or review panels sponsored by a government agency of the United States (including federal, state, or local government), a U.S. institution of higher education, or a research institute, academic medical center or hospital affiliated with a U.S. institution of higher education;
- Income from investment vehicles, such as mutual funds and retirement funds, in which the Investigator does not directly control investment decisions..

III. POLICY TEXT

A. DISCLOSURE OF SIGNIFICANT FINANCIAL INTERESTS

Investigators seeking PHS research funding or receiving PHS research support are required to disclose Significant Financial Interests related to their Institutional Responsibilities. These Investigators shall submit a disclosure of Significant Financial Interests in accordance with campus implementation procedures.

The requirement that an Investigator disclose a Significant Financial Interest under the terms of this Policy does not in and of itself imply the existence of an actual or potential Financial Conflict of Interest. The existence of a Financial Conflict of Interest, based upon the relationship of the Investigators' Significant Financial Interests to the Investigators' Institutional Responsibilities, is determined by a Designated Official(s) or an Independent Substantive Review Committee (ISRC) with input from the Investigator. If a Financial Conflict of Interest is identified, the Designated Official(s) or the ISRC shall recommend additional steps to manage or eliminate the conflict, to the Chancellor or Lab Director or designee who is authorized to act on that recommendation.

Investigators as defined by this policy, shall disclose to their campus all Significant Financial Interests related to their Institutional Responsibilities, no later than at the time of application for PHS funding.

This initial disclosure responsibility is separate from and in addition to an Investigator's ongoing duty throughout the period of a PHS research award to disclose to the campus Designated Official the Investigator's Significant Financial Interests, and those of the Investigator's spouse or registered domestic partner,² and dependent children), related to the Investigator's Institutional Responsibilities:

- Within thirty (30) days of discovering or acquiring (e.g., through purchase, marriage or inheritance) any new Significant Financial Interest (with the exception of travel disclosures, noted below); and
- At least annually throughout the period of the award.

Before joining an ongoing PHS-funded research project new Investigators must submit a disclosure of Significant Financial Interests to the campus.

Under the terms of this Policy, Principal Investigators must identify all Investigators on the award who (that is, all individuals who will have responsibility for designing, conducting, or reporting the research to be funded by PHS) are required to disclose Significant Financial Interests.

Sponsored or reimbursed travel may be disclosed:

- A. Prospectively listing all anticipated travel (including information about the purpose of the trip, the identity of the sponsor/organizer, the destination and the duration of the trip, as

² The inclusion of "registered domestic partner" is consistent with California State law (Family Code section 297 et seq.

well as any other information that may be required by the campus) for the twelve (12) month period following the filing of the Investigator's annual disclosure form; and/or

- B. Within thirty (30) days of the occurrence of travel that either was not listed on the prospective annual travel report pursuant to paragraph a) or that significantly varied in the threshold reporting details from what was listed in the prospective report.

Collaborators from other institutions who share responsibility for the design, conduct or reporting of research results, and who will be conducting research under a sub-grant or subcontract from the University are expected to comply with the policies and procedures for disclosure and review of a Significant Financial Interests at the institution at which they are employed or, if their institution does not have a conflict of interest policy that complies with the PHS regulations, they must comply with the University's policies and procedures for disclosure and review of a Significant Financial Interests related to PHS sponsored awards. Subawards issued by the University will ask the subrecipient institution to certify that its policy is in compliance with PHS conflict of interest regulations, and unless the subrecipient does not have a PHS-compliant policy, will indicate that the recipient organization is responsible for reviewing the disclosures submitted by its Investigators and, if a Financial Conflict of Interest is identified, for sending the University notification of the conflict and of the subrecipient institution's plan to manage, reduce or eliminate the identified conflicts, in accordance with PHS reporting requirements.

Collaborators who share responsibility for the design, conduct, and reporting of research results and who will participate in research under an independent consulting agreement issued by the University should be identified as Investigators by the Principal Investigator and should complete the University disclosure forms. If, upon review, the University determines that these financial interests could directly and significantly affect the design, conduct, or reporting of the research to be performed under the agreement, consultants will be expected to adhere to the plans put in place to eliminate, reduce or manage the identified conflicts of interest.

B. REVIEW OF DISCLOSURES; MANAGEMENT PLAN

With each PHS proposal, progress report, incremental funding or extension, Investigators' Significant Financial Interests disclosures will be reviewed by the Designated Official(s) to determine whether there are any Significant Financial Interests that reasonably appear to be related to the PHS-funded research activity in which the Investigator is engaged. Investigators shall have an opportunity to indicate whether or not they believe the Significant Financial Interest(s) they reported are related to their PHS-funded research activities.

In the event that the campus Designated Official(s) conclude that an Investigator's Significant Financial Interest reasonably appears to directly and significantly affect the design, conduct or reporting of the PHS-funded research; or is in an entity whose financial interest could be affected by the research, the Disclosure and appropriate documentation shall be forwarded to the ISRC or Designated Official for consideration. When it is determined

that there is a Financial Conflict of Interest, the ISRC shall make a final recommendation to the Designated Official (or designee) about whether any conditions or restrictions should be placed on the project to eliminate or manage the Financial Conflict of Interest before the support can be accepted.

The management plan is to be implemented prior to the University's expenditure of PHS funds awarded for the research project, and shall specify the actions that are required to manage the Financial Conflict of Interest, and shall include:

- The role and principal duties of the conflicted Investigator;
- Conditions of the management plan;
- How the plan will safeguard objectivity in the research activity;
- Confirmation of the Investigator's agreement to the plan; and
- How the plan will be monitored.

The same review process takes place when an Investigator reports a new Significant Financial Interest.

C. REPORTING TO PHS

Prior to the University's expenditure of any funds provided under a PHS award, the University must provide to the PHS funding agency an initial report regarding Investigator Financial Conflict of Interest. If Financial Conflicts of Interest are eliminated before research funds are expended, the University is not required to submit a report to the PHS funding agency.

During the period of the award, the University shall, within 60 days of receipt of disclosure of a new or newly-discovered Significant Financial Interest, review the disclosure, determine whether it is related to PHS-funded research, determine whether it constitutes a Financial Conflict of Interest, and if so, implement a management plan and report the Financial Conflict of Interest to the PHS funding agency.

For any Financial Conflict of Interest that the University reports to a PHS awarding agency, the University shall provide to the PHS awarding agency an annual Financial Conflict of Interest report that addresses the status of the conflict and any changes to the management plan, for the duration of the project. The annual report shall specify whether the Financial Conflict of Interest is still being managed or explain why it no longer exists. The University must provide annual reports to the PHS awarding agency for the duration of the project period ((including extensions with or without funds).

Within 60 days of determining that a Financial Conflict of Interest exists for a new Investigator who joins an ongoing PHS-funded research activity, the University must implement a management plan and submit a report to the PHS funding agency.

In any case in which the Department of Public Health determines that a PHS-sponsored project of clinical research whose purpose is to evaluate the safety or effectiveness of a drug, medical device or treatment has been designed, conducted, or reported by an Investigator with a Financial Conflict of Interest that was not managed or

reported by the University as required by this policy and Federal regulation, the University shall require the Investigator to disclose the Financial Conflict of Interest in each public presentation of the results of the research and to request an addendum to previously published presentations.

D. MONITORING

The management plan put in place by the campus shall specify the way in which the Investigator's compliance with the management will be monitored on an ongoing basis until completion of the PHS-funded research project.

E. RETROSPECTIVE REVIEWS AND MITIGATION REPORTS

When during the course on ongoing PHS-funded research project, the University identifies a Significant Financial Interest that was not disclosed in a timely manner by an Investigator or which was not previously reviewed, the Designated Official will, within 60 days, review the Significant Financial Interest to determine whether it is related to PHS-funded research activity, determine whether a Financial Conflict of Interest exists, and if so, implement a management plan on at least on an interim basis.

In addition, whenever a Financial Conflict of Interest is not identified or managed in a timely manner, regardless of whether the Investigator did not disclose an SFI that was later determined to be a Financial Conflict of Interest, or the University did not review or manage the Financial Conflict of Interest, or the Investigator failed to comply with a previously implemented management plan, the University must within 120 days of the determination of non-compliance, complete a retrospective review of the Investigator's activities and the PHS-funded research. The purpose of this retrospective review is to determine if the ongoing PHS-funded research was biased in its design, conduct or reporting. The University will document the retrospective review; such documentation will include the project number; project title; name of Investigator with the Financial Conflict of Interest; name of the entity with which the Investigator has a Financial Conflict of Interest; the reasons for the retrospective review; detailed methodology used for the retrospective review; findings; and conclusions.

- Based on the results of the retrospective review, if appropriate, the previously submitted Financial Conflict of Interest report should be updated to specify the actions that the University will take to manage the identified Financial Conflict of Interest going forward.

If bias was found during the retrospective review, the University will promptly notify the PHS funding agency and will draft a mitigation report that at a minimum documents the key elements of the retrospective review, describes the impact of the bias on the research, and outlines the University's plans to eliminate or mitigate the effect of the bias.

F. RECORD RETENTION

The Institutional Official will retain all disclosure forms, conflict management plans, and related documents for a period of three years from the date the final expenditure report is submitted to the PHS or to the prime PHS awardee, unless any litigation, claim, financial management review, or audit is started before the expiration of the three year period, in which case the records shall be retained until all litigation, claims, or audit findings involving the records have been resolved and final action taken.

G. TRAINING

Each Investigator must complete training on this Policy, the investigator's responsibilities regarding disclosure and the PHS regulations prior to engaging in research funded by PHS, and at least every four years thereafter. They must also complete training within a reasonable period of time as determined by the Institutional Official in the event that this Policy is substantively amended in a manner that affects the requirements of Investigators, if the Investigator is new to the institution, or if it is determined that the Investigator has not complied with this policy or with a management plan related to their activities.

H. PUBLIC ACCESS TO INFORMATION

Prior to the expenditure of funds, the Institution will publish on a publicly-accessible website or respond to any requestor within five business days of the request, information concerning any Significant Financial Interest that meets the following criteria:

1. The Significant Financial Interest was disclosed and is still held by the senior and key personnel;
2. A determination has been made that the Significant Financial Interest is related to the PHS funded research; and
3. A determination has been made that the Significant Financial Interest is a Financial Conflict of Interest.

The information to be made available shall be consistent with the requirements of the PHS regulation.

I. SANCTIONS

Failure of an individual to file a complete and truthful financial disclosure for pending proposals, or when a new interest is obtained, or failure to comply with any conditions or restrictions directed or imposed, including failure to cooperate with appointed award monitoring bodies, will be grounds for discipline pursuant to the Faculty Regulation and/or other applicable employee or student disciplinary policies.

Agreements with consultants who either fail to file a complete disclosure or fail to comply with any conditions or restrictions imposed may be terminated for cause. In addition, federal regulations may require reports to the federal sponsor of any violations of federal regulations and University policy.

IV. COMPLIANCE / RESPONSIBILITIES

| Function | Responsibilities |
|--|--|
| Investigators, as defined by this policy | <ul style="list-style-type: none"> • Must disclose to their campus all Significant Financial Interests (SFIs) related to the Investigator’s Institutional Responsibilities, no later than at the time of application for PHS funding. • Throughout the period of the PHS research award, must disclose to the campus their SFIs, and those of their spouse or registered domestic partner and dependent children: <ul style="list-style-type: none"> ▫ Within 30 days of discovering or acquiring any new SFI; and ▫ At least annually throughout the period of the award. • Before joining an ongoing PHS-funded research project new Investigators must submit a disclosure of Significant Financial Interests to the campus. • Principal Investigators must fully identify all Investigators on the award who are required to disclose SFIs under the terms of this Policy. • Investigators must complete NIH-compliant training about the University’s PHS financial conflicts of interest policy prior to engaging in research related to any PHS-funded project and at least every 4 years thereafter, while receiving PHS research funding and at other times as may be required by the University under this Policy. • In cases where the University has identified a financial conflict of interest held by the Investigator and has implemented a management plan to eliminate, reduce or manage the conflict, must adhere to the terms of the management plan. |
