JORDAN UNIVERSITY OF
SCIENCE AND TECHNOLOGY

About

Jordan University of
Science and Technology
(JUST)

It is the mission of **JUST** to provide students with top quality training in all fields of science and technology. We offer a training after graduation for where candidates can choose from a number of training specialties in the Faculty of Applied Medical Sciences (FAMS).

Our student body comes from different nationalities which fosters a highly diverse culture on our campus. International students comprise about 25% of our students.

JUST attracts and retains outstanding faculty and administrative staff who are well recognized in their fields. Our faculty comprises multifaceted staff who have varied experience. We are honored to have such distinguished members who have made key contributions in their fields.

Our university is modern in terms of facilities and resources that serve both teaching, training and research. **JUST** is always committed to the improvement of all facilities that will provide the environment and opportunities for the students to excel in their study. These improvements include equipping the labs, scientific utilities and research centers with the most advanced technological means of education.

ABOUT THE FACULTY OF APPLIED MEDICAL SCIENCES (FAMS)

Since the establishment of the Faculty of Applied Medical Sciences (FAMS) in 2000, we have been deeply committed to educating and training outstanding students to become skilled caregivers and leaders in their fields, who will, in turn, change the lives of the patients and families they serve in our local and national communities. FAMS provide teaching and training for a range of health service careers through its four departments: the Department of Rehabilitation Sciences, the Department of Allied Medical Sciences, the Department of Medical laboratory Sciences, and the Department of Allied Dental Sciences.

ABOUT THE APPLIED MEDICAL SCIENCES INTERNSHIP PROGRAM (AMSIP)
