 Department of Computer Information System
 Evaluation Form Graduation Project I (CIS491)
 (Documentation & Presentation)
Advisor Form

Student name	
Student number	
Project title	

Criteria	Grade	
1) Problem Formulation and Goal: <ul style="list-style-type: none"> • The problem is clearly stated and realistic • The goal of the project is clearly described • The project idea is NOVEL • The project is beneficial to society, industry or community 	20%	
2) The students collected ALL the necessary requirements to address the problem using standard data collection methods such as surveys, interviews, focus groups or existing systems and conducted content analysis	25%	
3) The students mapped all the requirements COMPLETELY into proper design diagrams	5%	
4) The students drew ALL relevant design diagrams PROPERLY (e.g. UML, DFD, ER... OR preprocessing)	15%	
5) The report written well (grammatical and syntax errors). Sentences readable and understood. Paragraphs logically connected.	5%	
6) Following up with the advisor, commitment to the meetings and working with the team.	20%	
7) The project presentation <ul style="list-style-type: none"> • Time management (start/ finishing on time) • Self-confidence and accuracy in delivering the ideas 	5%	
8) Questions/Answering for each student individually	5%	
Total	100%	
	50%

Advisor Form

Student name	
Student number	
Project title	

Criteria	Grade	
1) The students briefly reviewed the problem, project goal, requirements and some design diagrams as stated in GP1	5%	
2) The students successfully provided a solution to the problem statement proposed in GP1	5%	
3) The students mapped all the requirements and designs proposed in GP1 into implementation/code (tractability)	5%	
4) The project solution/implementation is NOVEL (has significant practical impact)	10%	
5) The backend/frontend of the project were well constructed and designed	10%	
6) The students addressed all the committees' comments on GP1	15%	
7) The system was error free	10%	
8) The report written well (grammatical and syntax errors). Sentences readable and understood. Paragraphs logically connected.	10%	
9) Following up with the advisor, commitment to the meetings and working with the team.	20%	
10) The project presentation: <ul style="list-style-type: none"> • Time management (start/ finishing on time) • Self-confidence and accuracy in delivering the ideas 	5%
