

TASNIM DALAL'AH

Electrical Engineer

Nanotechnologist

PROFILE

An engineer and a researcher to advance the state of the art in nanoengineering research by performing quality research, knowledge, engineering sense and work ethics to produce and manage optimal engineering solutions.

EDUCATION

Telecommunications Engineering

2010-2015

Bachelor degree at Al-Balqaa Applied University

Nanoscience and Nanoengineering

2019-2021

Master degree at Jordan University of Science and Technology

PERSONAL INFO

EXPERIENCE

- FM Broadcast Engineer, Jordan TV and Radio corporation, 2015-2016
- Solar cells Engineer and manager at my own company “Amatest for solar energy services” 2017-2020’
- Research assistance, Jordan University of Science and Technology, 2021-2022

RESEARCH

- Design and characterization of Perovskite Solar Cells’ layers, submitted in 2022.
- Investigation of the effect of the fabrication temperature on the optical, morphological and crystallinity properties of Perovskites composites, Published in 2022
