Place of Birth : Irbid, -Jordan

Nationality : Jordanian

Marital Status : Married

Permanent Address : P.O.Box 144828

Amman 11814 - Jordan

Statement of Teaching and Research

I enjoy transferring knowledge, know how, and skills to my students. In addition, I like to motivate their independent and critical thinking and improve their problem solving and soft skills. I utilize technology to promote their active participation in the learning process. I have developed a teaching philosophy that focuses on achieving the intended learning outcomes. I like to adapt to different students levels and learning capabilities by posing questions and building scenarios and activities. Over the years, I found that hands-on through project- and problem-based teaching offer students the best way to learn and strengthen their confidence in their capabilities. In the senior-level and graduate courses, I emphasize on the importance of team work and soft skills through group projects, term papers, software
