PERSONAL PROFILE

Dr. Noor A. Al Mortadi has a breadth of academic, research, and industrial experiences.

She is currently working as Associate Professor at Applied Dental Sciences Department. She received BSc degree in Dental Technology from Jordan University of Science and Technology (JUST), Irbid, Jordan, in 2005 and an MSc in Dental Science from University of Dundee, with Research on Accuracy of Dental impressions upon Disinfection, in October 2009. She earned a Ph.D. Degree in Digital Dental Technology from Cardiff Metropolitan University (CMU), Cardiff, UK in September 2014.

She has served as Assistant Dean of Research and Assistant Dean of Faculty of Applied Medical Sciences, Currently, she serves as Assistant Director of the Academic Development and Quality Assurance Centre and the Manager for the Academic Development Department.

She has undertaken practical modules in Implant and Complex Myofunctional Appliances, where the construction of the appliances is considered complex. She has taught over ten undergraduate courses in the Applied Dental Sciences Department. She has authored over ten articles published in professional journals. She completed several funded projects from inside the University and from external resources. She was awarded a **U.S.** patent in Digital Dental Technology in 2021. Her current group's research focuses on manufacturing digital dental appliances, dental technology, dental health and education, and evaluation and ethics in dental administration.

She is well known in Digital Dentistry and Dental Technology Modeling and Manufacturing. She has participated in over 20 global scientific conferences. She has attended over 20 workshops in dental technology, oral health, quality assurance, and higher education. She participates annually in two international scientific conferences. Moreover, Dr. Al Mortadi has been co-organizing several local and international conferences. She is a member of numerous professional societies.

PATENT

Inventor: Noor Abdullah Al Mortadi. Patent Name: Oral Device for Preventing Sleep Apnea and a Method of Manufacturing. US Patent, filed December 20, 2017, and DOC Date, 12.3.2020. Published January 12. 2021. Assignee: Jordan University of Science and Technology

Patent number: 10888451

Abstract: An oral device for preventing sleep apnea is provided. The oral device maintains an opening between the anterior teeth, resulting in a wider upper airway, while allowing the mouth to also open for yawning and normal talking. The oral device provides an upper plate and lower plate, each adapted to retain the biting surface of the respective set of maxilla and mandible teeth, wherein curved rods pivotally interconnecting both plates are adapted for maintaining an operable spaced apart relationship therebetween. The oral device is a unitary construction made from FDA-approved elastomers.

ACADEMIC ACTIVITIES

- Participated in Early Academic Career Program for Jordanian Universities, funded by British Council, Amman, Jordan, 8 workshops among 4 different Universities in Jordan, October 2019-Jan 2020.
- A member of the Scientific Committee of the 1st International Conference of Academic Jordanian Women Association entitled ‘‘Women in Academia’’ Amman, Jordan, *Date To be announced*
- A member of the Scientific Committee of the 1st International Conference of Faculty of Applied Medical Sciences, Jordan University of Science and Technology, Jordan, *Date To be announced*
- The chair of committee for Research, Quality and Development in The Association for Jordanian Women Academics, Amman, Jordan, since 2017
- Co-ordinator for two workshops in collaboration with The Association for Jordanian Women Academics on "Proposal Planning and Writing" and " How to write Perfect Proposal", Jordan University of Science and Technology, 27 April, 2017
- The chair of Scientific Committee for the 8th International Conference of Dental Technology organized with the Jordanian Association of Owners of Dental Technology Labs, Amman-Landmark Hotel, 8-11 November, 2016
- Organizing hands on GC materials in collaboration with Jordan University of Science and Technology, for Bill Marais and Ehsan Hamada, Amman, Jordan, 28 April, 2016.
- Participating in a workshop entitled ‘‘Digital Implant’’ workshop at the 7th International Conference for Dental Technology, Landmark Hotel, Amman, Jordan, 28-30 April, 2015
