

List of posters

presented at the Seventh International Scientific Agricultural Conference (SSAC-2012)

Irbid – Jordan (8-10/10/2012)

No.	Presenter	Title of poster
1)	Abdelrazzaq Al-Tawaha	Effects of planting density and cutting height on herbal yield production and water use efficiency of spearmint (<i>mentha spicata</i> L.) under soilless conditions
2)	Ahmed Al-Nedawi	Some factors affecting first service interval and number of insemination per conception in a herd of holstein cattle
3)	Alaa Saleh Ati	Effect of exchangeable sodium percentage and salinity on saturated hydraulic conductivity in soil different clay mineralogy
4)	Azzah Al- Nsariat	Effect of mulching on growth and development of improved "NABALI" olives under water harvesting condition and supplementary irrigation
5)	Bushra Sultana	Variation of phenolics, antioxidant and antifungal activities among different parts of selected medicinal plants
6)	Elshafeey Ibrahim El-shafeey	Losses in yield and yield component of some rice cultivars due to white tip nematode infection under Egyptian conditions
7)	Firas Al-Zyoud	Releasing the predator <i>Serangium parcesetosum</i> (Col., Coccinellidae) to control the cotton whitefly <i>Bemisia tabaci</i> (Hom., Aleyrodidae) under greenhouse conditions

No.	Presenter	Title of poster
8)	Firas Al-Zyoud	Effect of field history on the cereal leafminer <i>Syringopais temperatella</i> Led. (Lep., Scythrididae) in Jordan
9)	Firas Al-Zyoud	Biology, parasitoids, preferences and control of the cereal leafminer <i>syringopais temperatella</i> in Jordan
10)	Haifa Al-Zoghoul	Production of phytochemical compounds from <i>in vitro</i> grown <i>artemisia herba alba</i> L.
11)	Hajar Al Qawasmi	The effect of drought stress on growth and proline content of <i>in vitro</i> grown <i>solanum nigrum</i> L. a crop wild relative
12)	Hanan Abu shakra	In vitro propagation and characterization of phenolic content, antioxidant and antimicrobial activities of <i>cichorium</i>
13)	Hiba Al-Sayyed	The effect of date palm fruit (<i>Phoenix dactylifera</i> L.) on 7,12-dimethylbenz(α)anthracene (DMBA)–induced mammary cancer in rats
14)	Isra'a Masa'd	Effect of treated olive mill waste water on germination and early seedlings growth of <i>sorghum bicolor</i>
15)	Maher Tadros	Effect of different mulching techniques under different water harvesting treatments on pistachio trees growth and production
16)	Mohamed Ayoub Abdul-Majid	Comparison of plasma testosterone, thyroid levels, and semen characteristics of local and cross of improved awassi strains in Jordan
17)	Mohammad Alrababah	Ecogeographic characterization and seed germination of carob accessions in Jordan

No.	Presenter	Title of poster
18)	Mohammad Al-Shhab	Clonal propagation, medium-term conservation and antimicrobial activity of selected Jordanian medicinal plant
19)	Mohammad Noor Alhamad	Spatial analysis of dryland mediterranean landscapes in north Jordan
20)	Muna Mashal	Evaluation the effect of new safety compounds as a measure of control in safe sustain culture on dubas date palm <i>Ommatissus lybicus</i> Berg(tropiduchidae: Homoptera) palm scale <i>Parlatoria blanchardi</i> Targ (<i>diaspididae: Homoptera</i>) and egg lace wings (<i>Chrysopa vulgaris</i> Schn, chrysopidae: Neuroptera) on date
21)	Mustafa Beni-Domi	The effect of progesterone supplement on fertility of seasonally anestrous ewes
22)	Nawaf Abu-Khalaf	Inhibiting tomatoes gray mold (<i>botrytis cinerea</i>) postharvest disease using biological control.
23)	Wessam Shahrour	Identification of <i>phytophthora infestans</i> from infected potato and tomato plants using DNA sequencing
24)	Yahya Alsatari	تقييم نباتات القطف الملحي في تحسين الإنتاجية العلفية كعلف للأغنام في البادية الشمالية
25)	Yousef Abadi	Tissue culture, antimicrobial and insecticidal activities of <i>artimesia herba-alba</i> plants from Jordan
